Your Building's Exterior Project

Yosemite Village · CDS Homeowners Association · Resident Guide

Every building at Yosemite Village is getting new exterior work: roofs, garage roofs, gutters, windows, siding, paint and HVAC condensers. Work moves through four zones, one building at a time. Here is what to expect when your building's turn comes.

FIND YOUR ZONE

1. **First.** 1101, 1102, 1111, 1121, 1151, 1152
2. **Second.** 1131, 1141, 1171, 1181 and the two buildings nearest the center green
3. **Third.** 1213, 1215, 1219, 1223, 1231, 1243 and neighbors
4. **Last.** 1241, 1251, 1253, 1254 and the east-side buildings

The center green is the contractor's staging yard for the whole project. Please keep children and pets off it.

7 DAYS
Notice on your door and email with your dates

24 HRS
Reminder. Vehicles and patio items out

WORK DAYS
Barricades up. Roof closed every night

AFTER
Final sweep, walk and punch list

BEFORE YOUR DATES

☐ Move vehicles out of your garage or carport

☐ Move patio furniture, grills and planters 10 feet from walls

☐ Take down pictures and shelf items on outside walls

☐ Tell us about satellite dishes or wall-mounted items

☐ Book a window access time if your notice asks for one

WHILE WE WORK

Work hours: [START] to [END], [DAYS]

Stay outside orange barricades. Use the marked route.

Keep pets and children indoors near the active building.

Expect loud noise during roof tear-off days.

Found a nail or debris? Tell the site lead the same day.
